

Reserve Cabernet Franc 2005

Cabernet Franc is a highly regarded variety originating from the Bordeaux region of France, often being blended with Cabernet Sauvignon, Malbec and Merlot. It has been determined that Cabernet Franc and Sauvignon Blanc are the likely parents of the Cabernet Sauvignon grape. This wine is of medium body while elegant in character. The aroma is of ripe fruit with flowery notes, plus it has the added complexity of oak vanillin from 13½ months in French oak barrels. The tannins are moderate and the wine will continue to age favorably over the next several years. Serve this wine with your favorite grilled dinners, or for fun, taste it blind side by side with a Cabernet Sauvignon.

Harvest Date	November 4, 2005
